

Question 13

Hello Robert,

The quote from the Legions of Satan book was taken from a book I had read a few years back, it is my understanding this book has long been out of print. I don't understand why you suggest this is a major quote in my research paper. It is not. In fact if you take it out, it changes nothing. The historical documents speak for themselves, if you look, you will find them. I found most of them on the Internet. My work is not a "Global World Order" type theory, I would not waste several years researching a subject to prove what most people believe is a fiction. Below I will review just a few of the irrefutable facts.

The facts speak for themselves: fact, the 1213 Charta took place, the king gave his possessions to the Pope. Fact, the 1215 Charta took place, the king granted rights and lands to the Barons, with the Pope signing off on the Charta. Fact, a couple of months later the Pope declared the 1215 Magna Charta null and void. Fact, the king started businesses, called Virginia and Carolina in America. Fact, these American Charters were non-revocable trusts. Fact, the king claimed all lands in America settled by his subjects as his as a matter of Conquest. Fact, the king by way of the Charters possessed allodial ownership of this land. Fact, by way of the Charters the king retained for himself and all his heirs and successors 30 percent of all gold, silver and copper, to be sent to him annually. Fact, our forefathers declared themselves subjects of the king. Fact, the king had lawful title to this land, our forefathers could not claim what they never owned. Fact, the Revolutionary War was over taxation, not subjection to the king. Fact, the king ceded the land above ground in the 1783 Peace Treaty to the States. Fact, the king did not cede the gold, silver and copper to the States. Fact, the king could not cede the minerals to the States because of parties not yet born and successors yet to serve future kings of England, as a result of the Trust, he created. Fact, the inhabitants were not granted anything by the king. Fact, since the king retained the mineral rights to America, no man, free or otherwise had allodial title to his land, he was a mere tenant. Fact, the king allowed the inhabitants of the States to believe they were free, just as with the British people in the 1215 Charta and the 1689 Declaration of Rights. Fact, for a short period of time, eleven years to be exact, the inhabitants of the Colonies/States were declared to be freeman. Fact, freeman status ended with the passage of the 1787 Constitution, because all State inhabitants were now declared by their representatives to be citizens, subject to the laws of the U.S. government. Fact, the States ceded their grants of land and most of their sovereignty to the 1787 Constitution and U.S. government.

Fact, the king knew a central government was going to be created by the States when he signed the 1783 Peace Treaty. Fact, by the creation of the 1787 Constitution a Republic was created. Fact, the Republic in no way was a hindrance to the king in regaining his land, taxation and banking. Fact, the 1787 Constitution created a 10-mile square district, not subject to the restraints of the 1787 Constitution. Fact, in 1789 the Judiciary Act was passed by Congress, establishing courts of law, compatible with England, so contracts and business would continue with England. Fact, in 1791 Washington who once said "no" to being the king, and also said he did not want independence from the king, allowed the office of President to become a monarchy, outside of the 1787 Constitution, when he declared he was dividing the States into district States. Fact, the district States are subject to the President, this has never been changed.

Fact, 1791 the Bank of the United States was allowed to be chartered by Washington. Fact, the Bank was financed by the British Board of Trade, which was controlled by the Pope and Rothschild cabal. Fact, in 1811 when Congress refused to re-charter the Bank, England declared war on the United States. Fact, in 1810 the Thirteenth Amendment was proposed, which would have effectively removed the king's power of reclaiming his land from the American people, by removing the possibility of lawyers/esquires running and obtaining office in the United States government. Fact, the War of 1812 took place, the main objective was the burning of our documents in Washington and increasing the debt of the U.S., so the Bank would have to be re-chartered.

Fact, the Jay Treaty of 1792 took place giving away much of what was won in the 1783 Peace Treaty. Fact, in 1816 the second Bank of the United States was chartered. Fact, in 1836 President Jackson refused to allow the Bank to be re-chartered, an assignation attempt was then made on his life. Fact, since the king was denied the taxation through his bank, Congress passed the Act of 1845 his emissaries and loyal subjects, the Judiciary

(lawyers/esquires) confirmed the Act of 1845 with the Insular cases, allowing admiralty law to come on land, granting Congress and the President even more power. Fact, England began using propaganda through the news media concerning the slaves in the South, when the king was the biggest slave trader in the world.

Fact, the Civil War ended the 1787 Constitution, first by Sine Die (no lawful Congress) second, by passage of the Fourteenth Amendment. Fact, the Southern States were granted a full pardon by President's Lincoln and Johnson. Fact, the Southern States retook their seats in Congress. Fact, the re-seated Southern States voted on the Thirteenth Amendment in Congress and was ratified by the Southern States. Fact, the Northern States re-declared war against the Southern States, because they would not ratify the Fourteenth Amendment. Fact, a permanent state of Emergency was declared and marshal law put in place by the unlawful passage of the Reconstruction Acts. Fact, lawful State governments were removed by an unlawful Military occupation, by direction of an unlawful Congress. Fact, puppet governments were put in place by the unlawful Military Occupying Commanders, by direction of the unlawful Congress. Fact, the puppet governments of the Southern States ratified the Fourteenth Amendment. Fact, the 1787 Constitution by the unlawful passage of the Fourteenth Amendment was forever dead. Fact, with the king again in control, the bankers began the rape of America.

Fact, in 1869 one year after the passage of the Fourteenth Amendment Gould and Fisk corner the Gold market for the bankers, with the help of President Grant, which was known as black Friday. Fact, in 1873 Congress removes the silver coin from the market, that same year the crash of 1873 begins and lasts for three years. Fact, in 1900 Congress passes the Gold Standard Act and creates a gold reserve of one hundred and fifty billion dollars, and allows the bankers to sell bonds to maintain this gold level. Fact, in 1907, just seven years later the stock market crashes. Fact, because of this crash, two death blows occur in 1913, the Sixteenth Amendment is passed, and the Federal Reserve Act is passed. Fact, the Federal Reserve Act was written in England at the Bank of England by New York and English Bankers. Fact, the Federal Reserve is a direct descendant of England's Exchequer, which comes from William the Conquer and his taxation, the doomsday book. Fact, the doomsday book of William the Conquer is the county recorders office today.

Fact, World War one increases the national debt, and sees the passage of the War Powers Act in 1917. Fact, the true United States Independent Treasury created in 1846 that dealt in specie, was abolished by the act of 1920, thereby allowing the private Federal reserve board to control the money of America as the fiscal agent Of the United States. Fact, between 1913 and 1929 the Bankers and the Congress enter into gold guaranteed contracts totaling three hundred billion dollars when only three percent of that amount of gold existed in the World. Fact, the New York bankers fraudulent acts transfer huge amounts of gold to the Bank of England by 1929, along with the debt of the U.S., bringing about the stock market crash of 1929. Fact, in 1933 the American people are declared enemies of the bankers and the Conquest and transference of America is complete. Fact, in 1933 because of the United States Corporation's insolvency, the United States is forced to reorganize and implement the social and financial programs mandated by the Bankers of New York and England. Fact, in 1933 the king's hold and ownership of America's gold . the Bankers is complete, and America's death is insured by the acceptance of fiat money, Federal Reserve Notes. Fact, after 1933 the king's collection of taxes increases, along with increased power given to the IRS, his collection arm.

Fact, World War II increases the debt even further, which demands more taxes on the backs of Americans, now that they are co sureties for the debt as defined by the Federal Insurance Contribution Act of 1934. Fact, now that the enslavement of America is complete, the enslavement of the world was begun by the ratification of the U.N. Charter in 1945. Fact, the United States had to turn over 8 billion in gold to join the United Nations just 12 years after there was not enough gold in this Country, and it was declared having gold was a crime. Fact, the Korean and Vietnam wars explode the debt heaped on the backs of the American people.

Here we are, I have given you just some of the historical facts contained in my research papers. Because they are a matter of history and or Congressional Record, they cannot be rebutted, I have done the leg work and have given the sources in my research papers. Those that are ignorant of history are doomed to repeat it.
